Parties are being formed all over the state—some to start in the near future, others in the spring. But they will return probably as penitent as the prodigal son, who penned his father: "Meet me on the outskirts of the city with a suit of clothes. I have a hat."

J. C. JONES, secretary of the Mining and Transportation Company of Vermont, writes to secure ferry rights on the Pembina, Peace and Athabasca rivers, "and other rivers between Edmonton and the head of Pelly river." Dan Noyes left for Edmonton on March 5th with the secretary of the company.

J. A. McPHERSON of Stony Plain returned last week from an extended trip to his home in Ontario. The west is arousing great interest in the east, not only on account of the Yukon but by reason of its agricultural resources as well. Large quantities of western wheat are imported to the east and the quality is greatly superior to the eastern grown article, though the Ontario farmer gets from 75 to 78c for his inferior grade while his western brother has to be content with 60c. Mr. McPheron will east purchases, jointly with Mr. Tough, who went east with him, ten head of thorough bred Durham cattle which are now on the way west.

## THE DEBATE ON THE YUKON RAILWAY.

The debate on the second reading of the Yukon railway bill was resumed on Thursday morning by Mr. Moore, of Stanstead, and when he sat down the House appeared indisposed to further prolong the debate and the speaker began to put the questions, when Mr. Craig, of East Durham, got up and continued the debate in opposition to the bill.

Mr. Frank Oliver admitted this—the railway was for the benefit of the development of the Yukon, but there was a difference between the development of that country and securing the trade which resulted from that development. Development amounted to nothing if that development did not mean an increase of trade for Canada. According to what he was told the concession of blocks of land and the way they were given in this contract would not tend to the development of trade or of the country for the reason that any action which restricts the energy or opportunity of prospectors was a hindrance to development. He did not find fault with the area of the land grant because three million acres, or ten million amounted to nothing in that country. He believed that it would work out so that the whole gold-bearing area would be secured by the company. He objected to giving the contractors the right of selection of lands east of the mountains, as well as west, because the development by this railway would be confined to the west of the mountains. He said he did not wish to discuss reasons in favor of the railway, but as he could see no reason for supporting the contract on the ground that it would secure trade to Canada, and as he did not believe that it would be necessary to secure people next year from starving, because they could walk out, he would vote against the second reading.

Dr. Roche followed and denounced the contract as reckless. It reminded him of the contract between the Northern Pacific and the Greenway government. He found fault that tenders were not called for, contending that the government should have anticipated a rush into that region. He complimented Hon. Mr. Sifton on his presentation of the case, but accounted for that by saying that this contract was Mr. Sifton's first born, and as he was very proud of it, he could see beauties in it that no person else could see, and therefore dressed it up in the best possible form. He alluded to the contract for the construction of the Dauphin railway, which gave Mr. Sifton a little experience with these same contractors, and the stated terms upon which the road was built. He would not charge corruption against either the Greenway government or this government in connection with these contractors. He would be very foolish to do so, because he was unable to prove it, but he thought it had a fishy aspect. As a son to the member for Saskatchewan, who came to Ottawa vowing vengeance on the government, because of this contract, Mr. Sifton has hinted that at some future time the Edmonton route may be opened up to connect with this railway, and so secure trade for Edmonton, Calgary, Regina, Brandon and Winnipeg. Dr. Roche, in the course of his speech, was greatly encouraged by the cheers of the opposition, who were evidently pleased with his effort, judging from the hearty rounds of applause he received when he sat down.

Dr. Rutherford followed in support of the bill. Noticing Dr. Roche's reference to Mr. Sifton, Dr. Rutherford said that it was not strange when members of the opposition openly showed a want of respect for their own leaders, whom they attacked, that they should also attack the liberal leaders, and raised a laugh by saying that the house ought to be glad that the opposition made no invidious distinctions between their own leaders and liberal leaders. He made the point that while this contract was criticized, it was tacitly confessed to be the best possible under the circumstances, because no one suggested anything better. He was reminded of the remark he heard outside that a kind and beneficent providence had kept the gold of Yukon covered over by 20 feet of earth until such time as we had an honest government on parliament hill. He claimed that if Canada was to have any of the trade of the Yukon, we would have to have a road this summer and on that account the Edmonton route could not fill the bill. He believed that the House was tired of the debate and that everything that could be said had been said.

Mr. Robertson, of East Toronto, opposed the bill and favored the immediate construction of a road from an ocean port in British Columbia. He expressed a preference for the expenditure of millions of dollars of money rather than a land grant, in

obtaining communication with the Yukon.

Mr. Ganong, of New Brunswick, followed opposing the bill.

Mr. Morin, of Dorchester, who is a character, kept the house until one o'clock with an extraordinary speech against the bill. He addressed the speaker as "My dear sir," told of the agricultural resources of Oregon, and referring to the contract, said there was no guarantee that the contractors would operate the road. They will say "to hell with the road," Mr. Mr. Morin added. The house roared at this, and Mr. Speaker rose and called him to order. Morin said, "All right, I'll apologise, sit down."

The house adjourned at 1.15. The debate will not end until the middle of next week. Mr. Bethune, conservative member from Nova Scotia, will vote for the bill, also Col. Hughes, conservative, and probably Mr. Robinson, another conservative.

## JACK GRAHAM STRUCK GOLD.

Word was received here yesterday by R. Hardisty, from a friend at Dunvegan, who gives important and interesting information of Jack Graham's journey from St. John to the Liard river. The letter, which was written on the 8th of February, goes to show that the route which Graham took is not only possible, but easy as well, and that there is good feed all along it, and—most important of all—gold in paying quantities at the other end.

One of Graham's partners came on to Dunvegan and was interviewed by the writer of the letter. He reports the route as perfectly feasible, and that the country around Slave and Sturgeon lakes is an index of the country to the Nelson; and that the pack trail they went by beyond the Nelson, is a better trail than the ones in the vicinity of the Slave and Sturgeon lakes. They had plenty of feed all the way. They forded the Nelson and also the west branch which is smaller and which they call, "The Little Pelly." Beyond the Little Pelly, about halfway to the Liard, are two fine lakes which they christened Bacon and Looney lakes. These lake are connected with a good canoe route to the main Nelson. About twenty-five Indians were seen at this point, and the party also saw moose, marten, beaver and lynx in great numbers and a good many fisher, or to quote the words of the letter, "Plenty of moose, squads of beaver in every creek, swarms of marten, herds of lynx and many fisher." From the Nelson, which they crossed about thirty miles from the Rockies, they were in full view of the mountains all the way. They travelled on half open ridges and by numerous small creeks which supplied fine feed. They started back when the ice was running thick on the Liard, about the 10th of November, and on the return trip crossed the Nelson on the ice. They delayed to hunt and trap along the way and so did not reach St. John until the 1st of February, minus one mare, which was left with her foal at Pine river. Their thirteen other horses are fat. Graham remained at Fort St. John and has made arrangements with the Freano men to go back as soon as their letters of credit arrive. The prospects on the Liard showed \$10, \$15 and \$20 a day in fine, not coarse gold. The Indians whom they met reported six boats at some point below where Graham's party were. Graham saw no white men and knew nothing about the Klondike excitement until he returned to Fort St. John.

From the Peace river to the Nelson they report that a wagon road could be easily built and beyond that the only difficulty would be numerous creeks which would have to be corduroyed. Feed was good all the way.

R. Secord, of McDougall & Secord, is also in receipt of a letter from Peace river telling of Graham's trip. Much of the information is the same as given above. This latter letter states, however, that the route travelled was thirty miles away from and parallel to the Rockies and that Graham struck the Liard below the "pass" (meaning apparently, the divide at Hell Gate). He did not cross the Liard though the banks are easy and no difficulty exists for a trail. The two lakes which he discovered about halfway had plenty of fish. They were compelled to return on account of shortage of supplies. It is altogether probable that the boats which the Indians told them about as being further down the river, belonged to the Stephen-Howey and Graham parties from Edmonton, en route to the Yukon, as these parties were known to be in the vicinity of Fort Nelson on the Liard in October.

AS IT IS IN DAWSON.  
H. W. Canavan, late of the geological survey, who is now in Dawson City, writes on New Year's day to a friend at Ottawa. He says: "Things here are red hot, and money is loaned at ten per cent. per month. Next spring \$25,000,000 in gold will be taken out. To anyone coming in I would say: 'Get on the way at once and bring plenty of grub, for you can't get it here. No place to go out the saloons. Thousands are gambling daily and nightly; it never stops. One man last week lost \$21,000 at one sitting. I am going out next autumn, and you bet I will have my stake made by that time. Moccasins are \$10 a pair; drinks, fifty cents; grub not for sale; everything out of reason; money loaned at ten per cent. and lots borrowed."

STONY PLAIN.  
The Lutheran church, presided over by Rev. Mr. Eberhart was the scene of a wedding on Sunday, Feb. 20. The parties were Mr. Gansje, of South Edmonton, and Miss Lizzie Gartzel, of Stony Plain. The wedding was followed by a supper and dance at the residence of the bride's father. A large sum of money counting up to the hundreds has been subscribed to build a new church for the congregation of Rev. Eberhart. Rev. Mr. Pampitt's people are also contemplating the erection of a church on the base line. During the coming summer a new school is to be built in the Glory Hill district. A successful church fair and dance was held at the residence of Edward Guinet on Friday last. The proceeds we believe go to swell a church building fund. The Stony Plain literary society held its final meeting last Saturday. It seems too bad that a deserving organization such as this should not receive more general support. Feb. 23, 1898.

TROUBLE OVER THE YUKON RAILWAY.  
A despatch to the Winnipeg Tribune, from Ottawa, dated the 5th, says: The passage at Washington, yesterday, of the bill making the granting of bonding privileges at Wrangell conditional upon Canada conceding to Americans fishing privileges in the North Atlantic, thus repudiating their own treaty, raises a grave crisis here, and the government is now faced with the possibility, after having built the Teslin railway of finding it utterly worthless. The cabinet is now considering the question, and it is not improbable that a new deal will be made by which a line of railway will be constructed from Port Simpson to Teslin lake. This involves a heavy outlay in cash as well as lands. At Montreal it is reported that McKenzie & Mann are likely to enter into a new deal and will build the Yukon railway down to Port Simpson. Both the contractors are here and had a long conference with Sir W. C. Van Horne. La Patrie says the government may be obliged to contract immediately for twenty miles of railway from Glenora to Observatory Creek, thus assuring uninterrupted communication through Canadian territory to a Canadian port and that Mr. Coste, chief engineer of the department of public works, will leave on the 15th of March to examine the harbor at Port Simpson. Juneau, Alaska, March 1, via Port Townsend, March 5th.—That the Rothschilds will attempt to build a railway to the Yukon is now believed to be certain. The steamer Walcott which arrived here last night, landed a party of over 40 men and equipments for railroad building at Pyramid Harbor, near the Pyramid Harbor salmon cannery. S. Oronodon is the engineer in charge of the party and construction is immediately ordered. The men are to locate and build houses upon the lands near the cannery. Lumber was taken along for the purpose. This move is said to hold the townsite.

FOR KLONDIKE.  
Lake Lano, March 5, '98.  
MESSRS. GARIEPY & CHENIER, Edmonton, Alta.  
DEAR SIRS: We the undersigned George Doherty's party bound for the Yukon by land are perfectly satisfied with the courteous way and manners of Edmonton people. Coming from Woonsocket, R. I., United States, and having examined the price list of outfitting in two or three important cities, we do not hesitate in recommending all parties from the United States, to purchase all their supplies in Edmonton. All the stores are well assorted and the outfitting comes cheaper by at least 10 per cent; besides the merchants have experience in the northern trade as well as the exact things required.

Yours truly,  
The Woonsocket party, R. I.

THE MAINE INVESTIGATION.  
The board of enquiry appointed by the United States government to investigate the matter of the blowing up of the United States warship

Maine, in Havana harbor, has not yet made its report. Meantime rumor is busy circulating stories of impending war with Spain and the American papers are diligently concocting fresh sensations for every edition. Certain it is, however, that both nations are preparing for emergencies. Spain has purchased two cruisers, the Amador and a sister ship which the Armstrongs have been building for Brazil. These vessels are 4,000 tons each and carry ten guns. She is also negotiating for and will probably purchase two cruisers of similar type which are being built in France for Brazil and is endeavoring to secure guns and large supplies of ammunition in England and on the continent for immediate use. A London cable of the 4th, states that the United States forswore Spain in the purchase of other ships building in England and continental dock yards, which looks as though they did not intend to be behindhand.

# SUPREME COURT.

The case against Frank M. Grey, for shooting with intent to do grievous bodily harm, was concluded on Thursday afternoon. The judge in summing up charged in favor of the prisoner, stating that no evidence had been adduced to prove that he had done the shooting. The jury was out only a few minutes and on its return brought in a verdict of "not guilty." The prisoner was, therefore, discharged. N. D. Beck, Q. C., for prosecution. Win. Short for defence.

Queen vs. Crazy Calf, murder, was the next case on the docket. The prisoner, an Indian, is charged with the murder of his wife, Ne-ta-wa-pi-nim. The woman died some months ago, under circumstances sufficiently suspicious to warrant the holding of a coroners' inquest. The result of the investigation at the time and the verdict of the coroners' jury was to the effect that the deceased came to her death from pneumonia accelerated by shock and exposure and ill-treatment on the part of her husband, Crazy Calf. At the preliminary hearing of the charge Crazy Calf was committed for trial and his case came up for trial on Tuesday afternoon. The prisoner pleaded not guilty and the following jury was empaneled: H. McKay, R. McIntyre, J. Omand, H. W. Heathcote, T. G. Ross and A. E. Potter.

The case dragged slowly along until noon today. Many of the witnesses could not speak English, and as an interpreter had to be employed the proceedings were necessarily very tedious. The evidence was concluded and the argument of counsel heard this morning. The jury retired at noon and after being out about 15 minutes returned with a verdict of "guilty of assault, occasioning actual bodily harm." The prisoner was thereupon sentenced by the judge to three months imprisonment at Fort Saskatchewan. N. D. Beck, Q. C., for prosecution; A. C. Rutherford for defence.

# TROOPS FOR THE YUKON.

Ottawa, March 7.—The Canadian government have resolved to send immediately a military expedition to the Yukon to assist the civil power in the preservation of the peace and of law and order. It will consist of two hundred infantry and artillery men, chosen from the regular forces of Canada. The permanent corps will be under command of Major Evans, of the Winnipeg dragoons, who is expected to arrive in Ottawa today to receive instructions. Major Evans is an Ottawa boy, who has had a good deal of experience, and yet is still a young man of 28, and is considered here to be just the right age. The force is all ready to start, the decision to send one having been reached ten days ago.

# TROUBLE AMONG THE TAILORS.

DEAR SIR: Allow me a few lines in your valuable paper in which to vindicate myself before the public from some slanderous statements made concerning my work by the proprietor of a local tailoring firm, who, to judge from the appearance of his work does not understand the first element of garment setting. This person seeks to injure my reputation by telling everyone he knew of who had garments made by me that I do not use braid to edge coats with, and lots more of the same kind of stuff. It is unnecessary for me to state what every well dressed man knows that braided edges are out of fashion for the last six years and furthermore that I make my work according to instructions. The foregoing simply shows that means some people resort to when they can compete in no other way.

Yours truly,  
A. COASKE.

# New York Life Insurance Company

WHY EVERY MAN SHOULD INSURE IN THE NEW YORK LIFE . . . . .

BECAUSE:—It is the strongest company in the world.  
—It has over two millions in assets.  
—It earned for its policy holders last year from interest and rents, \$3,801,501.30.  
—These interest receipts, \$8,801,501.30, exceeded by \$400,000 the entire expenses of conducting the Company's business, including commissions for new business and charges of every kind whatsoever.  
—Its policies as now issued contain no restrictions as to residence, travel or occupation, habits of life or manner of death.  
—Its policies cannot be forfeited after three years, and, if allowed to lapse, the insured will receive either a paid up policy or extended insurance, as he may elect.  
—You can borrow from the Company at 5 per cent. per annum after your policy has been three years in force.  
—You do not have to die to win. If you live 10, 15 or 20 years you can settle your policy in any way that best suits yourself at the time for cash, paid up insurance, annuity or other options.  
—You want the very best, the most privileges and the fewest restrictions, whether small or great, and the New York Life's accumulation policy furnishes them all.  
—It furnishes to its agents and the insured public a detailed statement where every dollar of its money is spent and the rate of interest it is earning, and this statement is endorsed by 82 Governments.

# Mutual Reserve Fund Life Association

..OF NEW YORK..

# LARGEST NATURAL PREMIUM LIFE ASSOCIATION IN THE WORLD.

The Mutual Reserve gives protection at cost, and protection is all there is worth having in any form of insurance. Don't consider life insurance as an investment, for it isn't anything of the sort, nor pay an extra cent with the mistaken idea that ten, fifteen or twenty years hence the company will purchase your untimely, accumulative or endowment policy back from you at a profit to yourself. It can't be done, and the agent who promises you such is either a knave or a fool.

The Mutual Reserve gives you insurance at about 40 per cent. less than the old line companies charge for their straight life policies.

# SPECIAL FEATURES OF THE POLICY ISSUED BY THE MUTUAL RESERVE

- (1) In the event of the permanent disability, one half the face value of the policy will be paid.
- (2) No restriction as to travel, occupation or residence.
- (3) After it has been in force three years it will be incontestable, except for non-payment of premiums, as stipulated in the contract, or for mis-statement of age.
- (4) Dividends annually after the eleventh year.
- (5) Cash surrender after five years.
- (6) Extended insurance after policy has been in force five years.

Assets to liabilities nearly three times that of any other company in existence.

Agents wanted. Liberal contracts to good men.

### A LOST MINE.

The Anaconda Standard, of the 26th ult., contains a long and highly interesting story—which we would like to think is true—of a mine of fabulous richness found many years ago on the Pelly river by a prospector who went in by Edmonton and whose name could not be divulged. According to the story which the Standard tells, this miner left Edmonton about five years ago with three companions, bound on a northwesterly course over about the same trail as is now travelled. His companions at last became weary of the trip and returned, but he continued and after many hardships made a wonderful strike, a strike of such fabulous richness that its hard to swallow. This was, as near as could be gathered, on the Pelly river, below the lakes, in a deep ravine, which narrowed to a crevice so deep and narrow that it was bathed in eternal twilight even at noon-day and the persevering prospector was forced to make a torch and continue by its light, at last he saw a yellow glow and, so the story tells, found "disintegrated rock from which the gold stood out in great water worn knobs." The sight, as well it might, almost drove him mad with joy. He gathered all he could carry and after great hardships from starvation returned to Edmonton with his sack of gold which he afterwards disposed of for \$15,000. He afterwards organized another party for the trip to the mine, but changed his mind about letting them in on it and left them. He returned to Great Falls, Montana, and subsequently gave a rude map of the locality to a rancher there, named Portell. Portell, the article states, left Great Falls the third week in February, together with Peter McDermott, and John O'Brien, who are well known there, and they purpose locating the mine, going in by the coast to Dawson where they count on buying outfits from disgusted miners and will proceed eastward to the spot indicated by their map. Portell is stated to have letters from Edmonton men corroborating the story of the trip and the miner's return here.

The story has a tinge of partial probability lent to it by the fact that a party did leave Vancouver bound for that region by the backward route, but for proof of the truthfulness of the tale apply to the Anaconda Standard.

IT'S A GOOD THING; PUSH IT ALONG.

At a mass meeting of the citizens of Calgary, held on the 3rd for the purpose of discussing the opening of the road to Peace river and the Teslin lake railway proposition, the following resolutions were passed, and forwarded by wire to the premier, the minister of railways and Frank Oliver, M. P., at Ottawa:

"That whereas the recent discover-

ies of valuable gold and other minerals within the Northwest Territories, especially in that part known as the Klondike, necessitates the early construction of such roads and trails as will enable the large number of prospectors who are seeking access to the Klondike to proceed thereto through Canadian territory.

"And whereas there are according to reliable information, sections of that county lying between the town of Edmonton and the Klondike which are rich in minerals:

"Therefore be it resolved that this meeting of the citizens of Calgary, believing that it is in the best interests of Alberta and the whole Dominion of Canada that the route by Calgary and Edmonton, now so largely used by prospectors from all points of the world seeking access to the great gold fields of the north, should be opened up and developed, would urge upon the government of the Dominion the immediate construction of such roads and trails as would best meet such ends.

"We understand from Sir Wilfrid Laurier's reply to the delegates from the Northwest as reported in the papers that he contemplates sending out an exploring party at an early date, before undertaking any construction. From information in hand here we believe there is no difficulty in building a wagon road to Fort St. John, on Peace river, and over the Halfway river pass by way of the Nelson and the Liard rivers, and we would urge on Mr. Oliver to express our wishes to Sir Wilfrid Laurier that a wagon road should be begun at once."

On motion of Alderman Mackie the following resolution, condemning the Teslin lake railway scheme, was carried:

"Resolved that we the citizens of Calgary, comprising this meeting, believing that the provisional contract entered into by the federal government with Mann & Mackenzie is certain to prove a serious detriment to the best interests of the Canadian people, feel called upon to add our protest to those already made by many public bodies elsewhere in Canada against its ratification by parliament."

### CLEAN UP.

#### EDITOR BULLETIN.

DEAR SIR: I would respectfully call the attention of the town authorities and the citizens in general, to the necessity, as spring is approaching, of having the town thoroughly cleaned up. Owing to the large number of people who have camped with us during the winter, the numerous corrals of horses dotted all over the town, and the fact that our hotels, boarding houses and in some cases private residences, are crowded to excess, it is imperative that all sanitary precautions should be carefully observed. We expect that the rush northward will be very great during the spring and summer. Nothing would so injure the Edmonton route in the eyes of the world like an epidemic of disease. Happily our citizens are in good health. Let us maintain the record by a thorough spring clean up of houses, stores, back yards, especially avoid overcrowding in living rooms and sleeping apartments. Nature has made our town very attractive and it is the duty of every citizen to see that it is a clean and safe place for himself and the strangers to dwell in.

J. DYKE.

March 10, 1898.

#### CHEVALIER DROLET'S PLAN.

In a communication to the press, Chevalier Drolet submits the following plan for the realization of an all-Canadian route from Edmonton to the Yukon. His idea would be to form a regiment of sappers a thousand or 1,200 strong, under the command of civil engineers furnished say by the Kingston military college. This regiment of picked men would serve a double object. In the first place they would be a help for the Northwest mounted police, and their chief object would be to open a great national route from Edmonton to the Yukon gold fields. Mr. Drolet holds that 1,200 strong and able bodied men could in less than six months open a satisfactory trail to the head of the Yukon river which would be the people's route—the route of those

who cannot pay the enormous cost of traffic over the present roads. Another advantage would be the opening of over 1,000 miles of good land north of Edmonton, 200 or 300 acres of which might be given as a premium to the sappers at the conclusion of their three years' engagement, they to have the choice.
